Details:

Little League Intermediate is a transitional level for players aged 11 to 13, designed to bridge the gap between the Majors Division (46/60 field) and the standard Junior/Senior levels (60/90 field).

D5 Intermediate Fall Ball is open to all 12/13 years old on the Northshore (District 5). It is expected that training programs will continue through the winter season in preparation for a strong start to Spring 2027, where players will return to their home League for the spring season.

D5 Intermediate is committed to finding the best professional coaches for training and to be supported on game day by volunteer coaches in compliance with Little League rules.

To address the gap in D5 for players seeking a competitive baseball program, Elevation Intermediate Baseball introduces a bigger diamond (50/70), competitive baseball structure and full baseball rules including stealing and pick offs.

The Elevation Baseball Structure:

Fall ball with D5 Elevation baseball to develop experience on a bigger diamond with new rules (recruiting now!)

Regular season with your home Little League, competing across the north shore and beyond with in-season development programs by D5 Elevation.

Post season with D5 Elevation Baseball – representing the north shore and having the chance to compete for regionals, nationals, and maybe even a world series!

Fall Program:

The D5 team will be led by experienced professional coaches. The vision is to assemble an Intermediate D5 team capable of competing at the Western National level in Summer 2027.

Intermediate Fall Ball program will run 5 weeks, with 2 practices a week at (Ridgeview Elementary 50/70 field plus Northshore batting cages) with travel games on Sunday afternoons to play against Lower Mainland teams.

To support this program, specialized coaching will include professional batting, pitching and strength training.
